

Keep this instruction sheet in a safe place. Read instructions thoroughly before initial use for correct product handling and safety.

## How to use this product

1. Install stove on fuel canister and set one of the pot supports as illustrated. (Place on any one of the three pot supports)

2. Set one a pot support. Then, place a □ or raised area of the Micro Windscreen on the pot support as shown in illustration 1. Set the remaining two pot supports. The rest of the □s, or raised areas on the windscreen, must be directly placed on the remaining pot supports.  
3. Confirm that all three pot supports are firmly set. (See illustration 2)

## Caution

### CAUTION

- The Micro Windscreen is engineered for and intended to be used only with the Micro Regulator Stove. Never use this product with any stove other than the Micro Regulator Stove.
- Make sure that the 3 pot supports on the stove are firmly in place after setting the Micro Windscreen on the stove.
- The Micro Windscreen becomes dangerously hot during and after use. Never touch the windscreen when it is hot. Wait until the windscreen has cooled after use before touching it.
- Remember to remove the Micro Windscreen only after the windscreen and stove have cooled completely. To avoid injury and burn, be sure to follow these instructions. Failure to follow the instructions may cause bodily injury and burns.
- After initial use, the windscreen may discolor. Discoloration is expected and does not have an adverse impact on the performance.
- Leaving spilled food or water on the windscreen may cause rust. Be sure to keep the windscreen free from residual food and/or water.
- Read the manual instructions for the Micro Regulator Stove as well.

## Maintenance

Each Micro Windscreen has been thoroughly examined by our factory. If any issues or injuries arise, please contact your retailer or SOTO's office.
