 **SOTO**
Sparked by nature

Made \cong JAPAN

SOTO means “outdoors” in Japanese. Hajime Yamamoto founded Shinfuji Burner Co., Ltd., the company behind what would eventually become SOTO. SOTO is a pioneer in the development of innovative gas and petrol stoves that perform reliably even in harsh conditions. SOTO brand products are manufactured by Shinfuji Burner Co., Ltd. in Japan. The company has been producing burners, stoves and lamps for both private and commercial use since 1978. Yamamoto and his team began developing outdoor stoves and cookware under the SOTO brand in 1992. They invented new cooking systems such as the Micro Regulator system, which revolutionised outdoor cooking with its outstanding performance. They also succeeded in reducing the lengthy preheating time of petrol stoves to between 10 and 15 seconds. All SOTO products are manufactured in their own factory in Japan and shipped worldwide. Their products have received numerous awards.

A blue flame is proof of complete combustion – an essential factor in maintaining a high temperature and a mark of superior performance. SOTO is committed to offering outdoor equipment that meets the very highest standards in terms of safety and technology. Each item undergoes thorough testing until it meets SOTO’s rigorous requirements. Every SOTO product is the result of years of experience and expertise, combined with cutting-edge technology designed for outdoor enthusiasts.

Soto Technology

The Micro Regulator

In conventional needle-valve systems, the gas flow is regulated by turning the needle tip to adjust the fuel supply. When temperatures drop and the liquid gas cools down, the internal pressure decreases, resulting in a reduced flow of gas to the burner head. This produces a weak flame that is insufficient for cooking.

The Micro Regulator system maintains constant pressure at both low and high ambient temperatures.

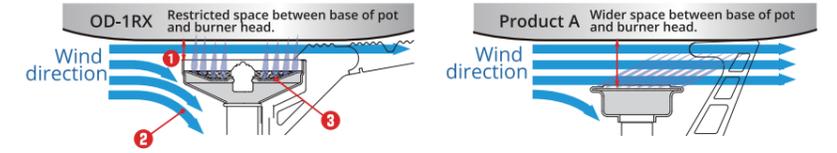

Soto Technology

Wind Resistance

Superior performance in windy conditions. Most SOTO stoves are equipped with Wind Resistance technology. The stoves are designed so that the distance between the pot and the burner head is kept to a minimum. In addition, the raised rim protects the numerous micro flames.

This makes it almost impossible for the wind to blow out the stove's flame.

WindMaster: Superior under windy conditions.

- 1 Minimal distance between pot base and burner head.
- 2 A surrounding rim around the burner head acts as a wind shield.
- 3 Precisely engineered concave burner head protects the flame from wind.

STOVES

Regulator Stove

ST-EU310

The Micro Regulator eliminates the weak point of MSF-1A cartridges, which tend to suffer a drop in performance at low outdoor temperatures. It delivers a consistently steady flame output even at ambient temperatures between 25°C and 5°C.

Technical details:

Power
2,900 watts
9,900 BTU

Weight 330 g
Size 16.6 × 14.2 × 11 cm

Details

- SOTO Micro Regulator Technology
- Integrated piezo igniter
- Very sturdy
- Precisely adjustable
- Burns very quietly

What's included

ST-EU310 with nylon stuff sack

Optional accessories

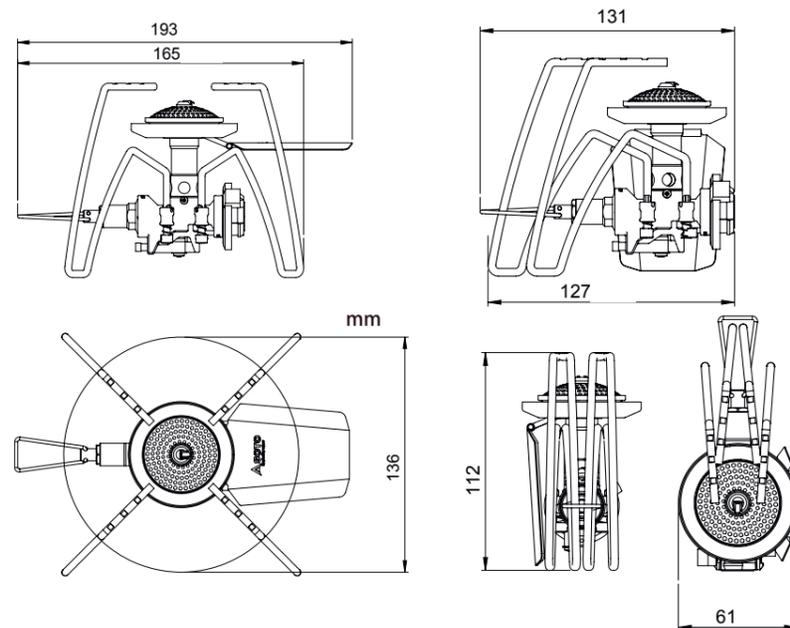

ST-3401 Minimal Worktop

ST-3101 Windscreen

Windscreen

Regulator Stove TriTrail

ST-EU350

A lightweight and compact stove powered by an economical MSF-1A gas cartridge. In addition to its low centre of gravity and high stability, the TriTrail also features a wind-resistant WindMaster burner head and a Micro Regulator. The aim of SOTO's minimalist design philosophy is to reduce weight and size as far as possible.

Technical details:

Power
2,600 watts
8,875 BTU

Weight 135 g
Size 13.0 × 15.6 × 11.1 cm

Details

- SOTO Micro Regulator Technology
- SOTO Wind Resistance Technology
- Integrated piezo igniter
- Titanium pot supports
- Precisely adjustable
- Burns very quietly

What's included

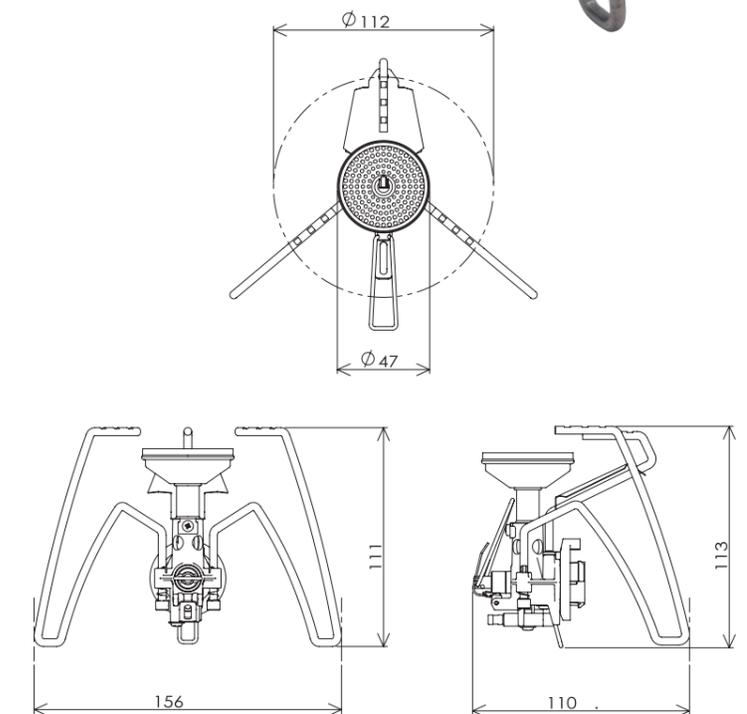

ST-EU350 and Tyvek bag

Optional accessories

ST-3501 Trail Table

StormBreaker

OD-1STRC

An innovative dual-fuel stove featuring the SOTO Smart Pump which allows immediate cooking in petrol mode without the usual preheating. It performs just as reliably in extreme cold as it does at high altitudes. The flame can be precisely adjusted and burns with strong, consistent power. Switching between gas and petrol operation is quick and easy, with no need to change the nozzle. The concave, wind-resistant design of the burner head is based on the proven and award-winning SOTO WindMaster. This makes the StormBreaker extremely wind-resistant, powerful, and efficient.

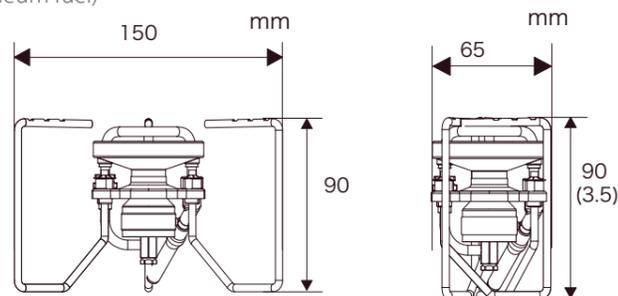

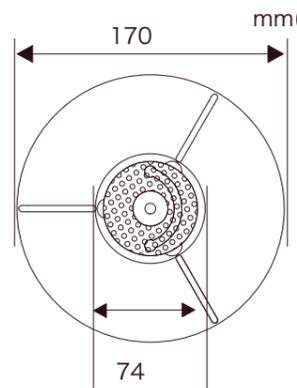

Technical details:

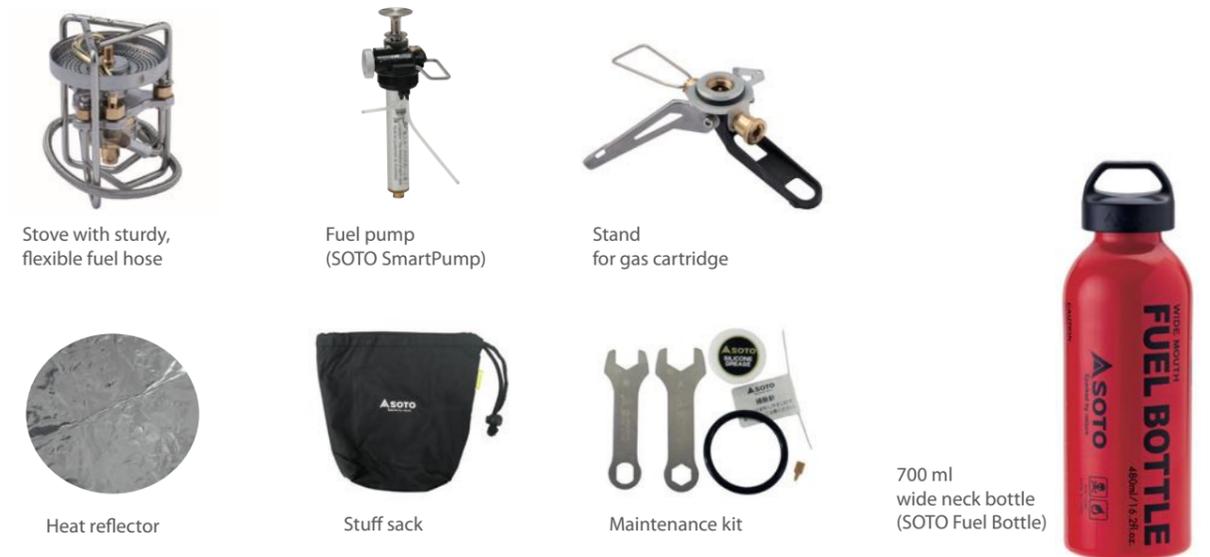

Power	Weight	
3,487 watts	Stove	228 g
11,904 BTU	Gas Adapter	57 g
	Smart Pump	170 g
	Fuel Bottle	189 g

Details

- SOTO Wind Resistance Technology
- Thanks to the SmartPump, liquid petrol is burned in a controlled manner from the very first second, with no preheating required, unlike conventional petrol stoves
- No nozzle change needed when switching fuels
- Suitable for unleaded petrol or white gas (a highly refined petroleum fuel)
- Efficient fuel consumption: high energy output due to minimal distance between cookware and burner
- Burns very quietly
- Also suitable for heavy pots
- Very high-quality and powerful pump with integrated pressure display and emergency shut-off switch
- Compact with no protruding parts
- Winner of multiple awards

What's included

More accessories see page 40

Optional accessories

Fusion Trek

OD-1FT

A highly powerful and wind-resistant gas stove with a broad, even flame pattern. The burner head has a large diameter and features over 300 micro flames that distribute heat evenly across the base of the pot. Even storm-force winds have little effect on the flame. The concave, wind-resistant design of the burner head is based on the proven and award-winning SOTO WindMaster. The burner nozzles are surrounded by a vertical metal rim that forms a protective recess.

Technical details:

Power	Weight	179 g
3,260 watts	Size	15 × 10 × 6 cm
11,000 BTU		

Details

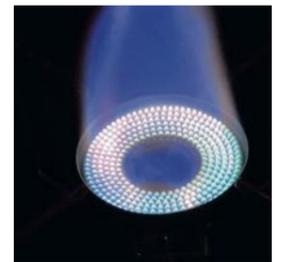

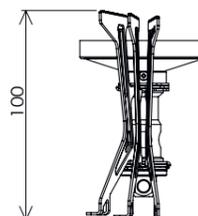

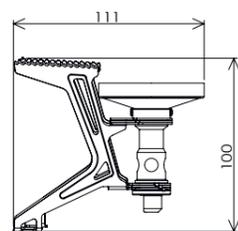

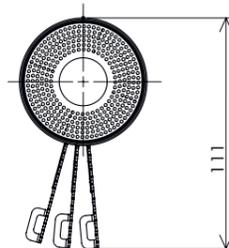

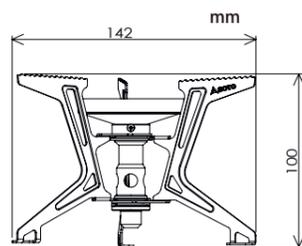

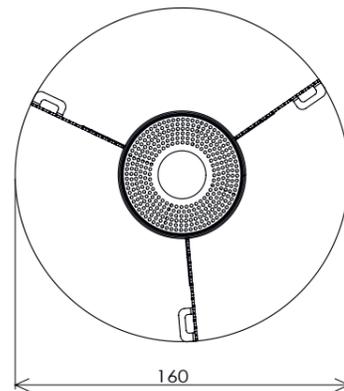

- SOTO Micro Regulator Technology
- SOTO Wind Resistance Technology
- Over 300 micro flames distribute the heat evenly for optimal performance
- Precisely controllable
- Burns very quietly
- Ribbed, non-slip pot support
- High-quality materials

What's included

Stove with sturdy, flexible fuel hose

Stuff sack

More accessories see page 40

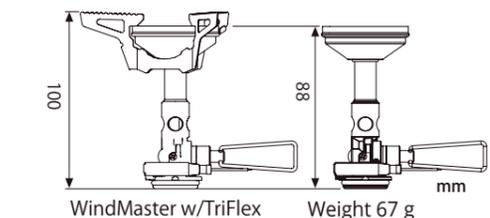

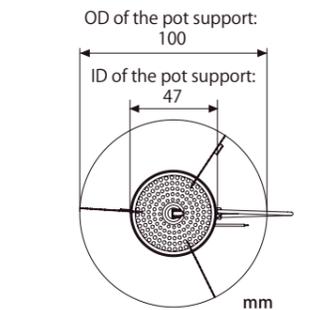

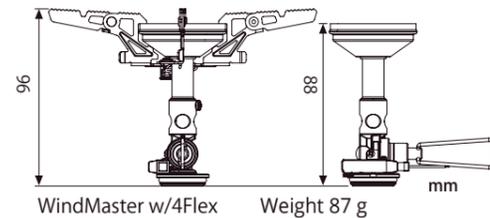

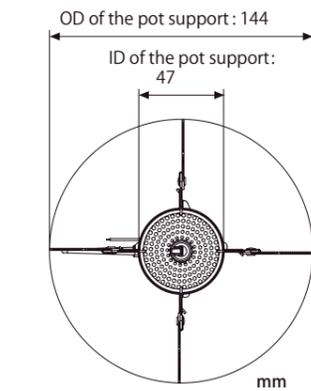

WindMaster

OD-1RXN

The WindMaster has proven itself on countless expeditions. Whether in the Arctic or on an 8,000-metre peak, this gas stove can handle it all.

Even storm-force winds have little effect on the flame. This is thanks to SOTO's Wind Resistance Technology. The burner nozzles are surrounded by a vertical metal rim, and the distance between the pot and the rim is kept to a minimum.

Technical details:

Power
3,260 watts
11,000 BTU

Weight with 4Flex support 87 g
Weight with TriFlex support 67 g

Details

- SOTO Micro Regulator Technology
- SOTO Wind Resistance Technology
- Integrated piezo igniter
- Burns very quietly
- Precisely controllable
- Low fuel consumption
- Pot supports lock securely in place
- Compact

Micro Regulator Stove

OD-1R

The Micro Regulator Stove was the first stove to feature the SOTO Micro Regulator. It ensures consistently strong performance even when pressure in the cartridge drops.

**NOT FOR SALE
IN THE U.S.**

Technical details:

Power	Weight	73 g
3,260 watts	Pot support diameter	11.2 cm
11,000 BTU	Min. pot diameter	6 cm

Details

- SOTO Micro Regulator
- Large burner head
- Very easy to use
- 1 litre boils in less than four minutes
- Reliable performance even at low temperatures
- Stable pot support with a maximum span of 11.2 cm
- Minimalist design
- Folds down very small
- Compact
- Burns very quietly

Igniter Repair Kit

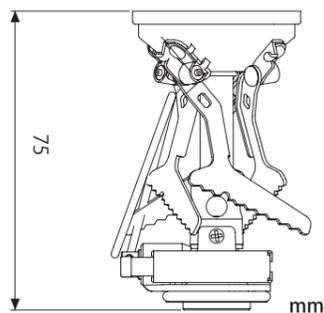

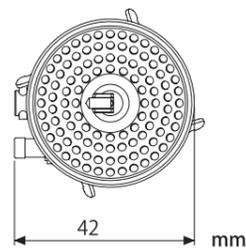

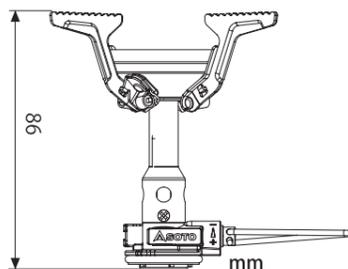

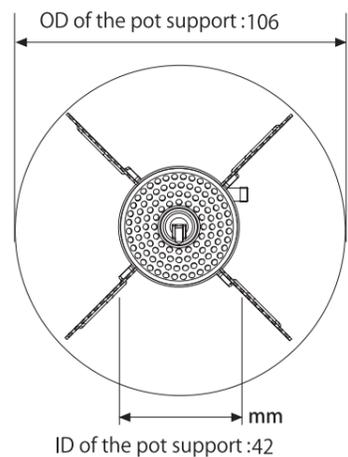

Amicus

OD-1NV

The Amicus is SOTO's affordable yet high-quality entry-level model. Its compact size and powerful performance are particularly impressive.

The concave burner head is set low and features a raised rim, allowing it to deliver full power even in windy conditions. The four pot supports automatically lock into place when unfolded.

Amicus
w/Stealth Igniter 81g
w/o igniter 75g

Technical details:

Power	Weight	75 g
3,020 watts	Pot support diameter	min. 4.2 cm; max. 10.6 cm
10,210 BTU		

Details

- Precisely controllable
- Valve with 3-fold O-ring
- Four pot supports for stable cookware positioning
- Folds down very small
- Very robust thanks to high-quality materials

COOKING SETS

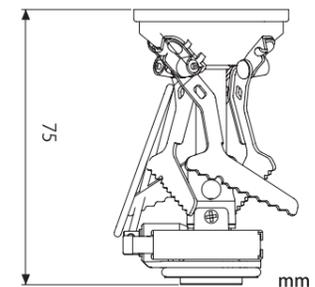

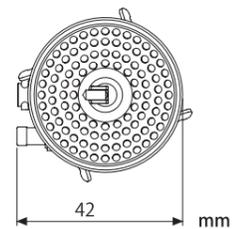

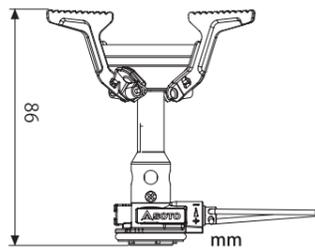

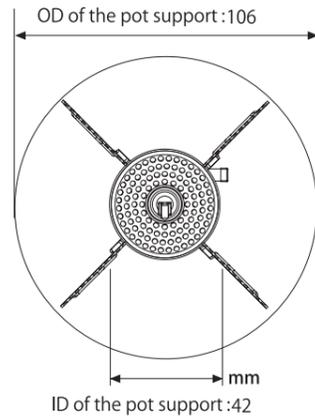

New River Amicus

OD-1NVE COMBO

Set consisting of New River Pot and Amicus Stove. The very lightweight pot made of anodized aluminium features a transparent plastic lid that allows you to see inside while cooking. The finely textured base ensures excellent stability on the stove.

In combination with the Amicus Stove, this provides a high-quality starter cooking set with compact dimensions.

Amicus w/Stealth Igniter 81g
w/o igniter 75g

New River Pot	
Weight	141 g
Size	12.5 × 12.5 × 12 cm

Details

- Ultra-lightweight pot with lid
- 1,000 ml capacity
- Non-slip thanks to textured base
- Lid can be placed upside down to save space
- Pouring hole in lid
- Food-safe and BPA-free

What's included

COOKWARE

Aero Bottle

ST-TN20 & ST-TN30

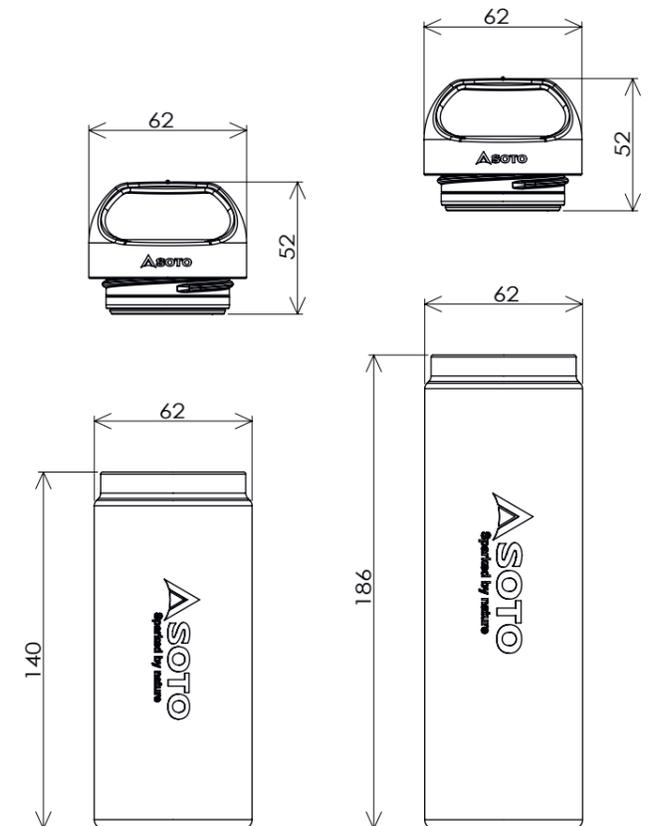

Technical details:

Volume	Weight
200 ml	124 g
300 ml	148 g

Details

- Double-walled titanium, vacuum-insulated
- Keeps contents hot or cold for up to 6 hours
- Wide opening
- Leak-proof internal thread
- Completely taste-neutral
- Non-reactive with any type of food
- Extremely lightweight
- Highly durable

Titanium Mug 450 & 600

SOD-532 & SOD-533

SOTO has taken it to the extreme with the new titanium cup. A special manufacturing process was applied to reduce the wall thickness to 0.3 millimetres to minimize weight.

At just 53 g, the Titanium Mug 450 is one of the lightest of its size on the market. Although the mug appears very fragile, it is suitable for use in the toughest conditions as titanium is very robust. It is ideal for expeditions, bikepacking, hiking or camping adventures – where every gram counts. It is impact-resistant, scratch-resistant and acid-resistant.

Titanium Mug 450

ThermoStack

SOD-520

The minimalist ThermoStack cookware set offers great flexibility. The two containers can be used separately for cooking or as cups. Alternatively, the smaller stainless-steel cup can be combined with the larger titanium cup to create a double-walled thermal mug.

The small, ultra-lightweight pot gripper makes handling hot containers easy. Plenty of functionality in a compact size.

Technical details:

Weight 167 g
Dimensions 8.6 × 8.6 × 11 cm

Details

- Robust
- Low weight with high functionality
- Flexible gripper for easy handling

What's included – SOD-520

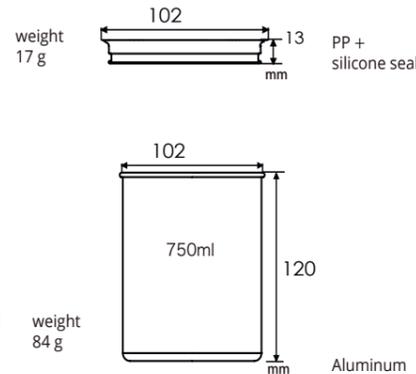

As shown

Thermolite

SOD-522

Sturdy aluminium pot with a capacity of 750 ml. The pot's surface is anodized, making it highly resistant to wear and preventing food from sticking. The supplied thermal cover keeps food warm for an extended period of time.

Technical details:

Weight 156 g
Dimensions 10.2 × 12 cm

Details

- Robust
- Low weight + high functionality
- Flexible gripper for easy handling

What's included – SOD-522

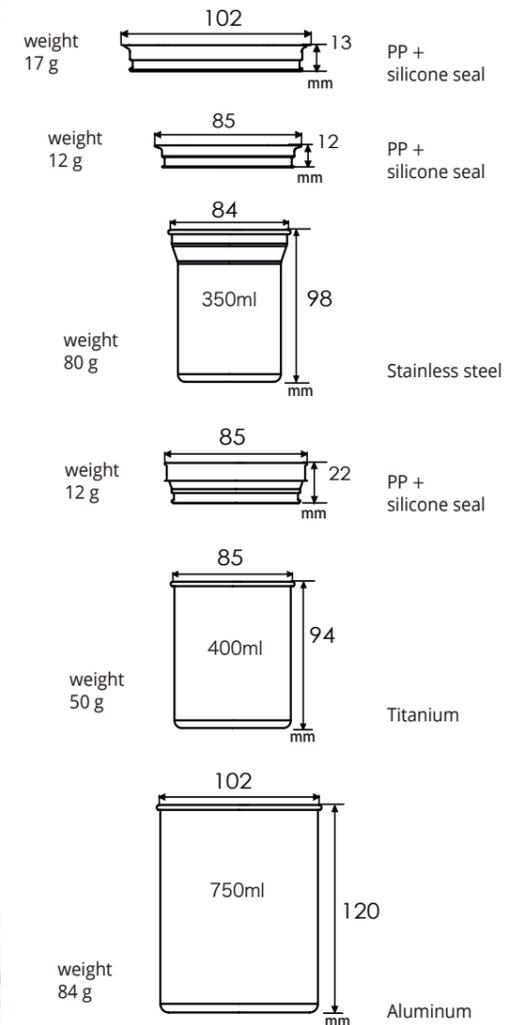

As shown

ThermoStack Combo

SOD-521

Extensively equipped, extremely light, 8-piece cooking set for up to two travellers. In addition to the two cups (titanium and stainless steel) which together create an insulating cup, the ThermoStack Combo comes with an aluminium pot with a capacity of 750 ml.

The pot is not coated, but anodized. This makes the surface of the pot extremely durable and prevents food from sticking. A separate insulating sleeve for the large pot keeps meals warm longer. Mixing, cooking, measuring, drinking: the ThermoStack Combo ensures comfort even when on tour – where every gram counts.

Technical details:

Weight 310 g
Dimensions 10.5 × 12 cm

Details

- Robust
- Low weight
- Highly versatile
- Insulating sleeve
- Flexible gripper for easy handling

What's included – SOD-521

As shown

SUITED FOR
DREAMS

Navigator Cooking Set

SOD-501

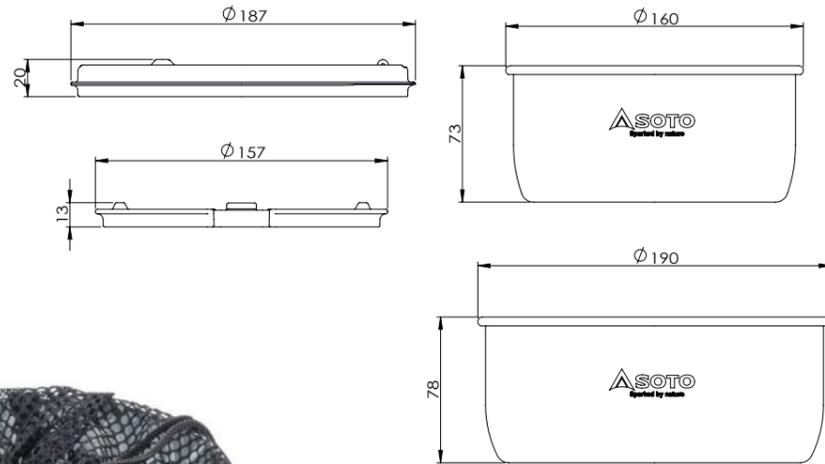

This 8-piece set covers most outdoor cooking situations. It is ideal for two people and long hiking tours. All cooking utensils can be stacked inside one another. The wide pot base makes optimum use of the flame, minimizing heat loss to the sides and helping to conserve gas supplies.

Technical details:

Weight (pot/lid)
 Large 140 / 57 g
 Small 99 / 49 g
Pot gripper 38 g
Cloth 17 g

Usable volume – small
 1,100 ml

Usable volume – large
 1,700 ml

Details

- Anodized aluminium
- Finely textured pot base
- Lightweight and robust
- Corrosion-resistant
- Acid-resistant
- Easy to clean

What's included – SOD-501

- 2 pots
- 2 lids
- DUO Handle
- Cleaning cloth
- Cozy 1100
- Stuff sack

New River Pot

OD-NRP

The pot is made of very lightweight anodized aluminium. The transparent plastic lid lets you keep an eye on your cooking at all times. The finely textured base ensures excellent stability on the stove. Thanks to its compact dimensions, the aluminium pot also fits easily into smaller trekking backpacks. For transport purposes, the handle folds in and the lid can be placed upside down.

Technical details:

Weight 41 g
Dimensions 12.5 × 12.5 × 12 cm
Usable volume
 900 ml

Details

- High-quality titanium pot
- Anodized aluminium
- Extremely lightweight
- Robust
- Corrosion-resistant
- Acid-resistant
- Easy to clean

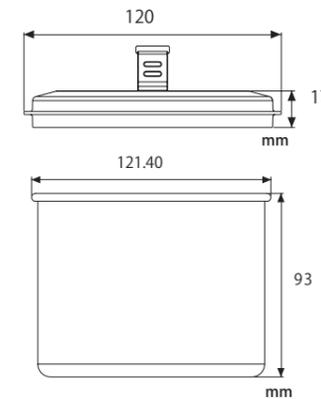

What's included – OD-NRP

New River Pot + Lid

Stuff sack

Navigator Frying Pan

SOD-503-18

The SOTO Frying Pan can be used on its own or together with the Navigator Cooking Set as a versatile accessory for camping and outdoor trips. This non-stick aluminium frying pan with a diameter of 18 cm fits perfectly as a lid on the Navigator Cooking Set (sold separately), completing it to a cookware set to meet all cooking needs.

Technical details:

Weight 110 g
Dimensions 18 × 18 × 2.5 cm

Details

- Non-stick aluminium with fluororesin coating
- Lightweight with excellent heat conductivity
- Can be stored on the lid of the Navigator Cooking Set (sold separately)

Gripper not included

Gora Pot Set

ST-950

The Gora Pot Set combines design, function and quality. Manufactured at SOTO's plant in Japan, the three high-quality stainless-steel pots stand out for their clean, minimalist design. They look great on a camping stove, in a camper van or on the kitchen stove at home. They make cooking easy and enjoyable. The material thickness ensures optimum heat distribution, while the pouring rim is designed for drip-free pouring. The three pots can be stacked inside one another to save space and also fit inside the Gora Oven.

A clever feature is the magnetic pot gripper, which makes it easy to lift the lids without burning fingers. The Gora Pot Set is so durable that it will be a reliable companion for many years – both on the road and at home.

Technical details:

Weight (pot/lid)

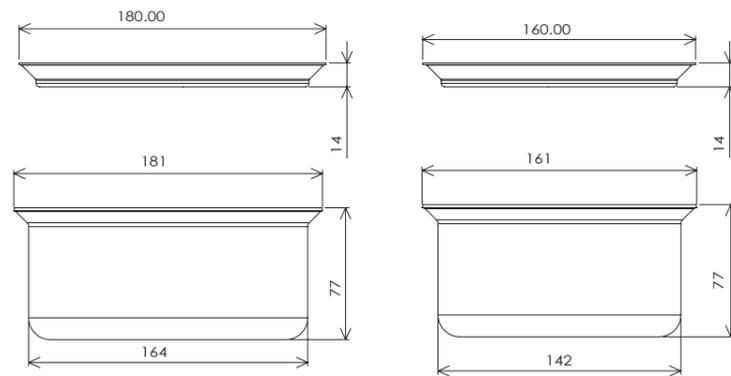

Large	1377 / 320 g
Medium	796 / 207 g
Small	665 / 166 g

Details

- High-quality stainless steel with wall thickness up to 1.8 mm
- Very robust
- Pots can be stacked inside one another
- Curved pouring rim for drip-free pouring
- Pot gripper with magnet for lifting lids
- Lids can be used as plates
- Suitable for induction cookers

What's included – ST-950

- Pot set
- Handle (lifter)
- Stuff sack made of cotton

Gora Oven

ST-950D

The "Dutch oven" originated in America and Australia in the 18th century. SOTO's Gora Oven allows you to cook, bake, braise, roast and deep-fry over a gas stove, petrol stove, campfire or on the hob at home. Every Gora Oven is unique: it is handcrafted by specialists at SOTO's factory in Japan from a single piece of steel, turned on a lathe. The lid can also be used as a frying pan when needed. Ideal for versatile, flavourful and nutrient-preserving cooking – on expeditions, at the campsite or at home.

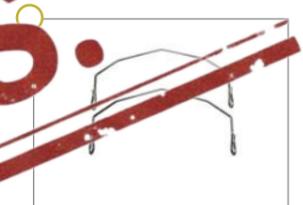

Technical details:

Weight Pot 2428 g / Lid 1520 g
 Dimensions 9.0 x 9.0 x 13.8 cm

- Single stainless steel pot with lid
- Extremely robust
- Lid can be used as a frying pan
- Easy to clean and low maintenance

Optional accessories

SOD-9502
Gora Oven Handle

ACCESSORIES AND SPARE PARTS

Pocket Torch XT

PT-XT

This storm lighter allows quick ignition of stoves, candles and campfires. Its telescopic arm can be extended to a length of 7 centimetres, enabling ignition from a safe distance. The highly wind-resistant flame reaches temperatures of up to 1,300 degrees Celsius. The Pocket Torch XT is refillable. With the Fill Adapter (optional), it is also possible to use screw-type gas cartridges. A viewing window shows the current fuel level, and the lighter's control has a safety lock to prevent accidental ignition.

Technical details:

Weight 49 g
Dimensions 11.5 x 3.4 x 1.6 cm

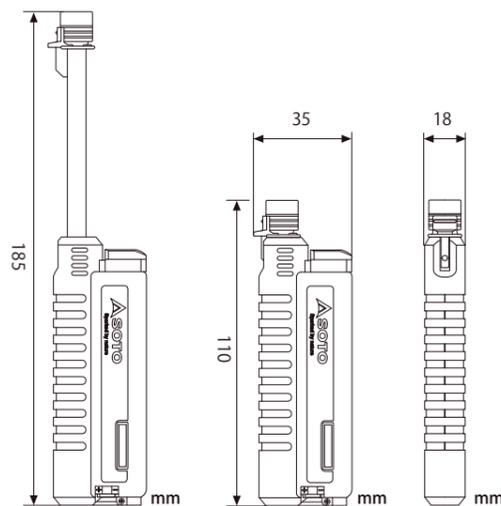

Details

- Very small
- Highly focused, hot flame
- Wind-resistant
- Prevents burnt fingertips

Optional accessories

Fill Adapter

Pocket Torch

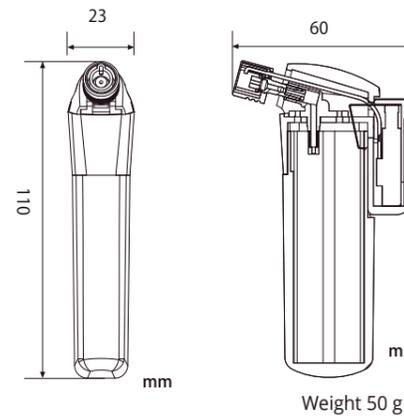

PT-14SB RFL

The SOTO Pocket Torch is essentially a lighter "attachment". It transforms an ordinary gas lighter into an efficient and reliable pocket torch. The lighter is simply inserted into the housing. The Pocket Torch produces a highly focused, wind-resistant flame with a temperature of around 1,300 degrees Celsius, making it easy to light candles, stoves or campfires even in the toughest conditions.

Technical details:

Weight 62 g
Dimensions 11.5 x 3.4 x 1.6 cm

Details

- Very small
- Highly focused, hot flame
- Wind-resistant
- Prevents burnt fingertips

What's included

Lighter

Refillable Lighter

PT-RFL

Technical details:

Weight 28 g

Details

- Suitable for the SOTO Pocket Torch
- Refillable, e.g. with the SOTO Fill Adapter for use with standard screw-type gas cartridges
- 2 lighters per pack

Field Hopper

ST-630

The compact Field Hopper is a miniature table that makes cooking easier during long trekking tours and camping trips. It unfolds in one smooth motion and provides a stable, level surface for stoves, cookware and pots. Inside a tent, it prevents hot or sharp-edged objects from damaging the groundsheet. Lightweight and space-saving. Also ideal for backpacking.

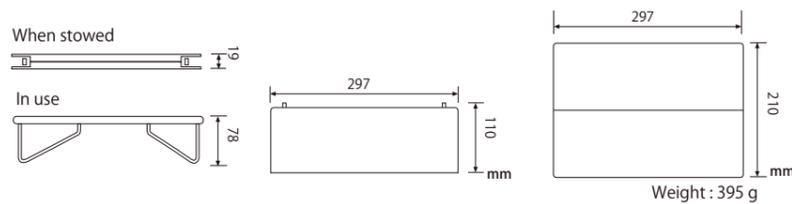

Technical details:

Weight 415 g
Dimensions 29.7 x 21 x 7.8 cm

Details

- Legs open automatically
- Lightweight and sturdy
- Extremely flat when folded
- Very easy to use

Field Kite

ST-632

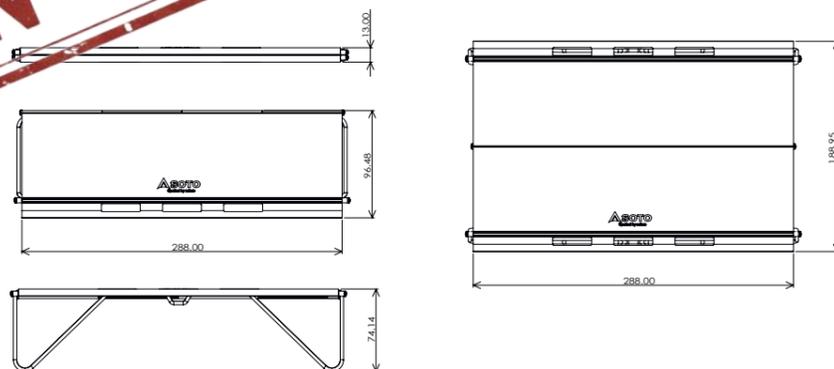

Technical details:

Weight 280 g
Dimensions 28.8 x 18.8 x 7.4 cm

Details

- Very lightweight
- Extremely flat when folded
- Stable standing position
- Extremely easy to use

Gravity Hanger

OD-GH

This clever hanging and fastening tool makes camping life easier. The Gravity Hanger is a multifunctional, self-closing hook for all kinds of gear. It keeps equipment secure and helps maintain order while on the move. It can be used to hang lamps, laundry, pots, cutlery, dishes and other items on a line. The Gravity Hanger is compact, lightweight and durable.

Technical details:

Weight 27 g
Dimensions 6 x 4.3 cm
Load capacity 120 kg
Material Aluminium

Details

- Very lightweight
- Versatile hanging device
- High load capacity
- Easy to use
- Self-closing

Helix Coffee Maker

OD-HLX

Extremely compact stainless-steel coffee filter holder. When folded, it fits easily into small backpacks, bags or a car glove compartment. On the go, it unfolds into a simple yet fully functional outdoor coffee maker.

Technical details:

Weight 45 g
Dimensions 10.5 × 11.5 × 7 cm
Folded 10.5 × 11.5 cm

Details

- Very lightweight
- Robust
- Extremely easy to use

What's included

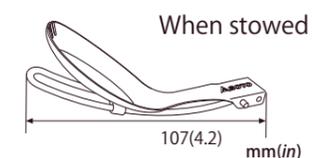

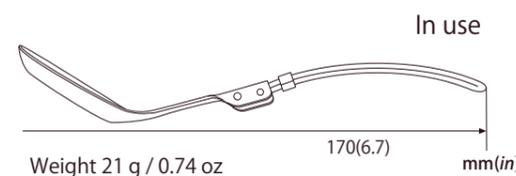

Pocket Spork

OD-SPK

This clever spoon and fork combination saves both space and weight in your backpack. Lightweight and foldable, the Titanium Spork adds virtually no weight to your pack. When unfolded, it's long enough to reach comfortably into deep trekking food pouches. Ergonomically shaped and completely taste-neutral because it is made of titanium.

Technical details:

Weight 21 g
Dimensions folded: 10.7 cm
 unfolded: 17 cm

Details

- Very lightweight
- Robust
- Extremely easy to use
- Also suitable for trekking food pouches or deep dishes

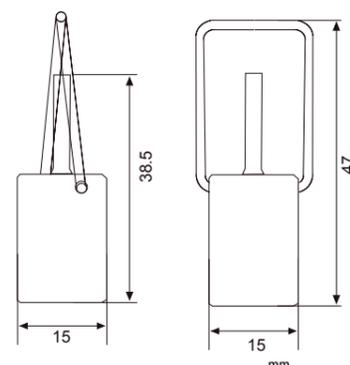

Fill Adapter

OD-TRC

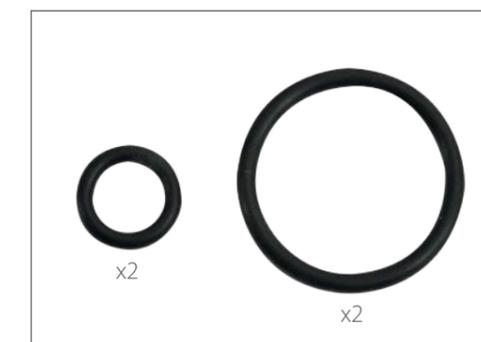

Technical details:

Weight 25 g

SOTO Seal Rings

OD-SR

2 small sealing rings
 2 large sealing rings

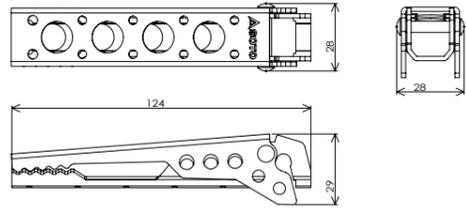

Replacement seal set for:

- WindMaster
- Stormbreaker
- Fusion Trek
- Amicus (with and without Igniter)
- Compact Foldable Stove
- Micro Regulator Stove

Igniter Repair Kit – Amicus

■ OD-1NVEP

SOTO stoves are built for durability and require no maintenance. Only the piezo igniters may fail after many years of use or exposure to boiling water. For this reason, SOTO stoves feature replaceable igniters that can be removed and securely reattached with a screw.

What's included

- Piezo igniter
- Igniter cover
- 2 small screws

Please note: This igniter is designed specifically for the SOTO Amicus stove and is not compatible with the SOTO WindMaster or the SOTO Micro Regulator stove.

Igniter Repair Kit – WindMaster

■ OD-1RXP

What's included

- Piezo igniter
- Igniter cover
- Large screw
- Small screw

Please note: This igniter is designed specifically for the SOTO WindMaster stove and is not compatible with the SOTO Micro Regulator or the SOTO Amicus stove.

Igniter Repair Kit – MicroStove

■ OD-1RP

What's included

- Piezo igniter
- Igniter cover
- Large screw
- 2 small screws

Please note: This igniter is designed specifically for the SOTO Micro Regulator stove and is not compatible with the SOTO WindMaster or the SOTO Amicus stove.

MUKA Replacement Hose

OD-HSN

MADE IN JAPAN

The solid components of the SOTO Muka are extremely durable. When used in tough conditions, the flexible fuel hose can sometimes fall victim to sharp edges or tight bends under heavy strain. Easy to replace.

What's included

- Fuel hose with protective cap

MUKA Generator

MADE IN JAPAN

OD-GRN

If the generator gets blocked during a trip and cannot be cleaned, a spare unit provides quick assistance. The generator can easily be replaced using the tool from the Maintenance Kit.

What's included

- Generator unit for SOTO Muka stove
- Screw
- Connector/seal

MUKA Maintenance Kit

OD-MKN

MADE IN JAPAN

The Muka Maintenance Kit ensures your SOTO Muka stove is kept in perfect working order. It includes various accessories for maintenance and replacement of individual parts. This means that you're well prepared for any issues with the stove on the trail – never miss out on a hot dinner.

What's included

- 2 O-rings P-34
- Spring to prevent backflow
- O-rings S-3
- Backflow prevention valve
- O-ring 13.8 x 2 mm
- Replacement filter for SOTO Smart Pump
- Silicone grease
- Pump shaft seal for SOTO Smart Pump

StormBreaker Replacement Hose

OD-1ST1

MADE IN JAPAN

The solid components of the SOTO StormBreaker are virtually indestructible. When used in tough conditions, however, the flexible fuel hose can sometimes fall victim to sharp edges or tight bends under heavy strain. Easy to replace.

What's included

- Fuel hose with protective cap

StormBreaker Generator

MADE IN JAPAN

OD-1ST2

If the generator gets blocked during a trip and cannot be cleaned, a spare unit provides quick assistance. The generator can easily be replaced using the tool from the Maintenance Kit.

What's included

- Generator unit for StormBreaker stove

StormBreaker Nozzle Unit

MADE IN JAPAN

OD-1ST3

If the jet gets blocked during a trip and cannot be cleaned, a spare jet provides quick assistance. The jet can easily be replaced using the tool from the Maintenance Kit.

What's included

- Nozzle unit for StormBreaker stove

StormBreaker Maintenance Kit

OD-ST4

MADE IN JAPAN

The StormBreaker Maintenance Kit ensures the SOTO StormBreaker is kept in perfect working order. It includes various accessories for maintenance and replacement of individual parts. This means you're well prepared for any issues with the stove on the trail – never miss out on a hot dinner.

What's included

- 2 spanners
- O-ring / sealing ring for SOTO SmartPump
- Silicone lubricant
- Fuel filter for SOTO SmartPump
- Cleaning needle

Minimal Worktop

ST-3401
